- Customized Export Packaging

Flakes

Powder

Minced

Granules

Product Specifications

Red Onion products are made from high-quality dehydrated red onions (*Allium cepa*), processed under hygienic conditions. Available in Powder (80–100 mesh), Flakes, Granules, and Minced forms, they have a natural pink to light red color with a characteristic pungent onion aroma and flavor. Moisture content is typically $\leq 5\text{--}6\%$, total ash $\leq 4\text{--}5\%$, and acid-insoluble ash $\leq 0.5\%$. The products are microbiologically safe, with *E. coli* and *Salmonella* absent. Shelf life is 12–18 months when stored in a cool, dry place. Suitable for seasonings, ready-to-eat foods, sauces, soups, and spice blends.

- Onion Flakes 5 to 25mm
- Minced 1 to 3mm
- Granules 0.2 to 0.5mm
- Powder 80-100 Mesh

Product Specifications

Dehydrated Garlic is produced from fresh, high-quality garlic cloves that are carefully dried and processed into powder, flakes, granules, and minced forms. It has a characteristic pungent garlic aroma and off-white to light cream color. The product typically contains $\leq 6.5\%$ moisture and meets standard microbiological safety requirements, with no harmful pathogens. It is free-flowing, free from foreign matter, and available in various mesh sizes as per application needs. With a shelf life of 12–18 months under cool and dry storage, it is ideal for seasonings, spice blends, ready-to-eat foods, sauces, and food processing industries.

- Garlic Flakes 8 to 10mm
- Minced 1 to 3mm

- Granules 0.2 to 0.5mm
- Powder 80-100 Mesh

Fingers

Powder

Product Specifications

- Name: Turmeric
- Form: Fine powder / Whole dry fingers
- Color: Bright yellow to deep orange
- Aroma & Taste: Characteristic earthy aroma, slightly bitter flavor
- Moisture: $\leq 8\text{--}12\%$ (as per grade)
- Curcumin Content: As per quality grade (typically 2–5% or higher)
- Purity: Free from foreign matter and adulterants
- Microbiology: E. coli & Salmonella absent
- Shelf Life: 12–24 months (cool & dry storage)
- Packaging: 20–25 kg food-grade bags or as required

Seeds

Powder

Product Specifications

- Product Type: Red Chilli Powder & Dry Red Chilli Seeds
- Color: Bright to deep red
- Flavor & Aroma: Strong, pungent, characteristic chilli aroma
- Moisture Content: $\leq 10\text{--}12\%$
- Purity: $\geq 98\text{--}99\%$ (free from foreign matter)
- Mesh Size (Powder): As per requirement (commonly 40–80 mesh)
- Seeds Quality: Clean, well-dried, uniform size
- Admixture: Minimal, within food safety standards
- Microbiology: E. coli & Salmonella absent
- Shelf Life: 12–18 months (store in cool, dry place)
- Packaging: 10 kg / 25 kg food-grade bags or as required

Seeds

Powder

Product Specifications

- Name: Clove
- Forms Available: Whole Clove (Seeds), Clove Powder
- Color: Dark brown
- Aroma: Strong, warm, aromatic
- Flavor: Spicy, pungent, characteristic clove taste
- Moisture: $\leq 10-12\%$
- Volatile Oil Content: High (as per quality standards)
- Purity: Free from adulterants & foreign matter
- Microbiology: E. coli & Salmonella absent

- Shelf Life: 12–18 months (store in cool, dry place)
- Applications: Health supplements, smoothies, herbal blends, nutraceuticals, and food products

Powder

Product Specifications

- **Product Name:** Banana Powder
- **Botanical Name:** *Musa paradisiaca*
- **Appearance:** Fine, light cream to pale yellow powder
- **Flavor & Aroma:** Natural banana flavor with mild sweet aroma
- **Processing Method:** Made from fresh bananas, peeled, dehydrated, and finely ground

Physical Properties:

- Form: Powder
- Color: Light cream / pale yellow
- Texture: Fine and free-flowing
- Moisture Content: $\leq 5\%$

Chemical Properties:

- Ash Content: $\leq 5\%$
- Particle Size: 80–100 mesh (customizable)

Microbiological Parameters:

- Total Plate Count: As per food safety standards
- Yeast & Mold: Within permissible limits
- Pathogens (*E. coli*, *Salmonella*): Absent

Packaging

- Bulk packaging available (5kg / 10kg / 25kg)

Shelf Life:

- 12–24 months under recommended storage conditions.

Powder

Product Specifications

- **Product Name:** Kiwi Powder
- **Botanical Name:** Actinidia chinensis / Actinidia deliciosa
- **Part Used:** Fruit
- **Processing Method:** Spray-dried / Dehydrated
- **Country of Origin:** India

Physical & Chemical Properties

- Appearance: Fine Powder
- Color: Light Green to Yellow-Green
- Odor: Characteristic Kiwi Aroma
- Taste: Natural Sweet-Tart Kiwi Flavor
- Particle Size: 80 Mesh (100% pass)
- Moisture Content: $\leq 5\%$
- Total Ash: $\leq 5\%$
- Bulk Density: 0.4 – 0.6 g/ml

Microbiological Parameters:

- Total Plate Count: ≤ 1000 cfu/g
- Yeast & Mold: ≤ 100 cfu/g
- E. coli: Negative
- Salmonella: Negative

Packaging

- Bulk packaging available (5kg / 10kg / 25kg)

Shelf Life:

- 24 Months under proper storage conditions.

Powder

Product Specifications

- **Product Name:** Beetroot Powder
- **Botanical Name:** Beta vulgaris
- **Appearance:** Fine powder
- **Color:** Deep pink to dark red
- **Flavor & Aroma:** Natural sweet, earthy beetroot flavor

Ingredients:

- 100% Natural Beetroot

Moisture Content:

- Maximum 5-7%

Mesh Size:

- 60-100 Mesh (or as per requirement)

Solubility:

- Partially soluble in water

Packaging

- Bulk packaging available (5kg / 10kg / 25kg)

Shelf Life:

- 18-24 Months when stored properly
